EDUCATION

PES University

Bachelor of Technology in Computer Science

Dec 2020 – May 2024

Bengaluru, Karnataka

RELEVANT COURSEWORK

- Data Structures & Algorithms
- Software Engineering & Product Methodology
- Database Management Systems
- Artificial Intelligence & Machine Learning
- Internet & Web Technologies
- Systems Programming & Architecture
- Human-Computer Interaction (HCI)
- Information Systems & Business Analytics
- Agile Product Development

PROFESSIONAL EXPERIENCE

Dayforce

Feb 2024 – Present

Associate Software Engineer (Full-time) — Software Engineer Intern

Bengaluru, India

- Spearheaded the go-live of Dayforce ESS across **600+ clients and 6M+ employees**, including marquee accounts such as Google, HPE, Deutsche Bank, and Oracle, driving measurable gains in adoption and satisfaction.
- Led development and deployment of an in-house **captcha service and configurable password module**, strengthening authentication and reducing support overhead by 30%.
- Resolved **16,000+ Veracode vulnerabilities** and implemented CSRF/security fixes, ensuring compliance and reinforcing Dayforce as a trusted enterprise-grade platform.
- Drove cloud modernization and hardware migration initiatives, enabling seamless collaboration across product, infrastructure, and QA teams.
- Implemented CI/CD pipelines and migrated repositories to GitHub, integrating with AIDA (LLM-driven developer assistant) to improve developer productivity and release velocity.
- Collaborated with UI/UX and product teams to design Figma wireframes, conduct user research, and publish a data-backed product case study guiding future roadmap planning.

TuteDude

Nov 2023 – Feb 2024

Web Development Instructor

Remote (Online Platform)

- Taught full-stack web development using the MERN stack to students through an interactive online learning platform.
- Created and delivered **55+ hours of original course content**, covering fundamentals of HTML, CSS, JavaScript, React, Node.js, and MongoDB.
- Designed practical assignments and capstone projects to help students gain hands-on experience in web application development.
- Mentored learners individually to strengthen debugging, version control, and deployment practices.

Quantblu (FinTech Startup)

Aug 2023 – Oct 2023

Backend Developer (Founding Team, 2 Members)

Remote

- Established foundational software development principles, best practices, and code standards for an early-stage fintech platform.
- Developed multi-channel authentication (Zerodha, ICICI Direct, Google) to enhance user trust, security, and accessibility.
- Built scalable RESTful APIs using Node.js and MongoDB, optimizing response times and backend modularity.
- Introduced Scrum methodologies and CI/CD pipelines, improving delivery consistency and speed.
- Delivered the MVP in **record time**, enabling a successful presentation to a primary round of angel investors.

PROJECTS

Dayforce – Learnit (Capstone Project) | C#, Microsoft SQL, ReactJS

Apr 2024

- Developed a full-stack learning management platform following completion of internal technical training, applying skills in C#, SQL, and ReactJS.
- Implemented database design, version control, and Agile sprint practices to deliver a scalable, maintainable product used for onboarding and upskilling.
- Led and collaborated with a 10-member cross-functional team, demonstrating initiative, coordination, and ownership throughout the development cycle.
- The project's success showcased both technical and leadership capabilities, playing a key role in securing a full-time offer at the end of the internship.

PUBLICATIONS

Adaptive UI/UX for Smart Geriatric Users

IEEE Xplore, 2024 International Conference on Computing, Communication, and Control (ICCCR 2024) – Shanghai, China

Awarded **Best Capstone in Department**, PES University.

Presented research on adaptive user interfaces for elderly users, leveraging contextual sensing and accessibility-driven design principles.

Guide: Prof. Nitin V. Pujari

TECHNICAL & PRODUCT SKILLS

Languages: Python, Java, C, JavaScript, SQL, HTML/CSS

Product & Design Tools: Figma, Notion, Jira, Miro, Confluence, Google Analytics

Developer Tools: VS Code, Eclipse, GitHub, Google Cloud Platform, Azure

Methodologies & Frameworks: Agile, Scrum, Design Thinking, A/B Testing, User Research, Wireframing

Technologies: Linux, Jenkins, JUnit, WordPress, Microsoft SQL, REST APIs

LEADERSHIP / EXTRACURRICULAR

- **Dayforce** Feb 2024 – Ongoing
 - * Appointed as Intern Handler, designed an onboarding framework improving time-to-productivity and enhancing developer experience.
 - * Volunteered through Dayforce Cares Initiative at Karunashraya Hospice, engaging in community impact and social responsibility programs.
 - * Initiated multiple community cleanup drives alongside other employees within the organisation, all part of the Dayforce cares CSR Initiative.
- **Aatmatrisha, PES University** Jan 2023 – May 2023
 - * Spearheaded sponsorship and stakeholder relations, raising over INR14L and leading an 80-member team, demonstrating ownership, communication, and financial planning skills.
- **The Coder Factory (TCF), PES University** Aug 2021 – May 2024
 - * Co-headed TCF, designing and implementing digital literacy initiatives for women, enabling income-generating opportunities through data entry and tech skills.
 - * Curated a Design Thinking Workshop for school students to build solutions for UN Sustainable Development Goals (SDGs), fostering early innovation and user empathy.

HONORS AND AWARDS

- **Best Capstone Award** Feb 2024
 - * Received Best Capstone in Department Award for “Adaptive UI/UX for Smart Geriatric Users”, selected from a pool of 180 projects.
 - * Recognized for its exceptional social impact and user-centered innovation, later published in IEEE Xplore and presented at ICCCR 2024 (Shanghai).
